

TEXAS TECH UNIVERSITY

Office of the President

THANK YOU

Dear Texas Tech Community,

Last week, while still dealing with the effects of the COVID-19 pandemic, we were confronted with the impact of a winter storm that brought nearly a week of below-zero temperatures to West Texas.

We want to take this opportunity to express our thanks to each of you for how you responded to the special circumstances of last week. Your extra efforts ensured that our students continued learning by shifting to online instruction. You provided access to academic services, relocated students impacted by freezing pipes and water leaks, and dealt with the many operational disruptions to our facilities. Along with our community partners, you met our campus's food and water needs, despite product delivery challenges resulting from winter weather across the state.

Over the last year, your resilience and perseverance have been tested many times, and each time, you have risen to the occasion in supporting one another and overcoming the challenges. You have our deepest appreciation for all that you do.

Sincerely,

Lawrence Schovanec

President
