At Texas Tech, the health and safety of our students, faculty and staff is our top priority. We have many campus initiatives and resources available, and to make these resources more easily accessible, we’re launching the new Raider Safety initiative.

We’ve made many improvements to our campus, including enhanced lighting, additional security cameras, blue light phones, and reduced vehicle traffic to improve pedestrian safety. We all must work together to ensure our campus is safe, and we can all play a role by reporting anything that looks or feels wrong. Raider Safety is our shared responsibility.
