

TEXAS TECH UNIVERSITY

Office of the President

MEMORANDUM

DATE: December 1, 2023

TO: Faculty and Staff

FROM: Lawrence Schovanec, President

RE: Interim CIO Announcement

I am pleased to announce the appointment of Keith Halman as Interim Chief Information Officer (CIO) for Texas Tech University, effective **January 1, 2024**.

Halman brings a wealth of experience and knowledge in information technology and a strong dedication to advancing the mission of our institution.

He currently serves as associate vice chancellor and CIO for the Texas Tech University System, where he collaborates closely with leadership across the TTU System's component institutions. His responsibilities include leading enterprise services in Communication Services, Information Systems (IS), and Technology Operations and Systems Management (TOSM).

Before joining the Texas Tech University System, Halman spent 16 years at The University of Texas at Arlington, serving as executive director of Business Technology Services. Throughout his career, he has demonstrated significant IT leadership experience across various industries and technologies.

Halman is an alumnus of Texas Tech University, holding bachelor's and master's degrees in information systems from the Jerry S. Rawls College of Business.

His interim appointment as CIO will play a critical role in advancing our institution's IT strategies and supporting our academic and administrative needs. His leadership will ensure the continued enhancement of our technological infrastructure and services.
