CC: Noel Sloan, CFO and Senior Vice President for  
Administration & Finance  
Ron Hendrick, Provost and Senior Vice President  
Joe Heppert, Vice President for Research & Innovation

RE: Continuing Health Insurance Support for  
TA/RA/GPTI Positions

Last year, it was [announced](#) that additional funding had been allocated to help offset the increasing cost of health insurance for students in TA/RA/GPTI positions. I am pleased to share that we will be continuing this health insurance support for TAs and GPTIs through salary assistance, as well as enhancing coverage for RAs to 100%, also through salary support on grants or other salary funds.

We hope this decision underscores our unwavering commitment to the well-being of our Red Raider family and recognizes the invaluable contributions that our TA/RA/GPTI students make to our academic community.

Additional communication will be shared with college and department business managers to outline next steps in the process.

FROM HERE, IT'S POSSIBLE.™
