

Flu Season

Flu season has arrived and it's vital that all members of our university community get vaccinated against the flu. Getting a flu shot is extremely important as it allows medical resources across our city to be concentrated on fighting COVID-19, instead of outbreaks of the flu. Flu vaccines are available at the Student Wellness Center, at an on-campus clinic on Oct. 15, and at numerous locations across the City of Lubbock.

Study Areas

Students that are in need of a place to study on campus can find designated study areas in numerous locations across campus. Alternative study locations have been established inside the Student Union Building, the Library and by taking advantage of outdoor areas that have been equipped with WIFI. A complete listing of designated study areas is available below and students are reminded to follow all health and safety protocols, including social distancing and wearing a mask at all times.
